# Special Care Dental Services

Special needs dentistry, also known as special care dentistry, is for people challenged developmentally, medically and physically

## A dental practice where special needs meets special care

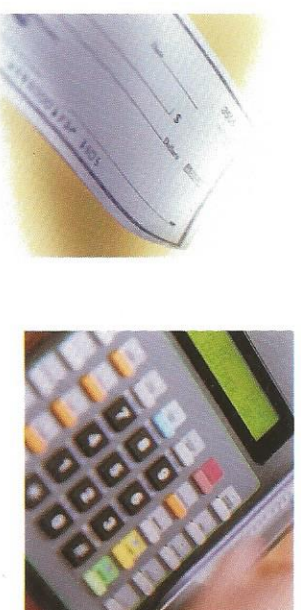

In practice since 1982, the care of special needs dental patients is our priority

All care is provided in a hospital operating room

General anesthesia under the care of an anesthesiologist

The full resources of the hospital are available to address the patient's medical concerns

## Financial Information

### Dental Fees:

Payment is due in full, 2 weeks before the appointment

Insurance plans accepted

No interest financing available

Credit cards, cash, and checks accepted

Denti-Cal accepted if eligible

### Next Step:
